INSTRUCTIONS FOR 911 NUMBER APPLICATION

1. WHERE PROPERTY HAS NEIGHBOURING PROPERTY WITH 911 NUMBER:

Measure from the middle of your entrance to the middle of the neighbouring property's entrance. Measurements can be in metric or imperial, but the measurement must be taken in a straight line. If the neighbour is on the opposite side of the street/road, measure from middle to middle but measure along the property line. For example:

Draw your map as shown above. Please indicate the street/road name, the distance between the middle of each entrance/driveway and your neighbour's 911 number.

2. WHERE THE PROPERTY IS A CORNER LOT OR NEAR AN INTERSECTION:

Measure from the middle of your entrance to the middle of the intersection, as shown below and draw your map accordingly. Please indicate the street/road name your entrance is on and the distance measured.
